

2024 SIDEWALK REPLACEMENT CRITERIA

The City of Aurora maintains the public sidewalk system consisting of concrete sidewalk within the right-of-way and will repair sidewalks (including sidewalks through driveways) that meet one or more of the following conditions:

1. Sidewalk sections that have raised or sunk creating a vertical displacement of two inches (2") or more.
2. Sidewalk sections that have broken and separated into three or more pieces where each piece is over 1 foot square. Cracks must be opened 1/8" or more.
3. Sidewalk sections where 50% or more of the surface is deteriorated as defined by scaling to a depth of 1/2" or more.

Conditions to be measured and evaluated by the Engineering Division.

Sidewalk locations with standing water on the sidewalk for longer than 48 hours after a rain/snow/melt event will be investigated by the Engineering Division for potential solutions. See City of Aurora Drainage Policy at: <https://www.aurora-il.org/2576/Drainage-Issues> for details.

If you are concerned about the condition of sidewalks, please contact the City of Aurora, Customer Services Division at 630-256-4636.

DRIVEWAY APPROACH AND CURB & GUTTER REPLACEMENT

The City of Aurora and property owners share the maintenance responsibilities for drive approaches as well as the sidewalk and curb & gutter through driveways. The City of Aurora will reimburse owners for a portion of the cost to replace deteriorated drive approaches, sidewalk, and curb & gutter. Please contact the Division of Building and Permits at (630) 256-3130 for a Driveway Permit and an application for the Driveway Assistance Program (DAP).
